<p>Right now, some people around the world are sick. That's because they have a virus.</p>	 <p>sick</p>
<p>I do not notice the virus because it is very small, but people with microscopes have seen the virus and they named it COVID19.</p>	 <p>microscope</p> <p>COVID19</p>
<p>If I catch the virus, I may feel sick. If I feel sick, it's important to tell somebody I don't feel well.</p>	 <p>I feel sick!</p>
<p>If I am sick, I may have a cough or it might feel difficult to breath.</p>	 <p>cough</p> <p>tight lungs</p>
<p>If I am sick, my throat might hurt or I might have a runny nose.</p>	 <p>cough</p> <p>runny nose</p>
<p>If I am sick, I may feel warm. I may have a fever. If I am sick, I may not be able to smell or taste.</p>	 <p>fever</p> <p>smell</p> <p>taste</p>
<p>I can cover my mouth when I cough or sneeze, this will help prevent spreading germs. I will wash my hands every time I return home and before I eat.</p>	 <p>cover mouth</p> <p>wash hands</p>
<p>If I am sick, I may need to wear a mask to prevent spreading germs</p>	 <p>mask</p>
